Terrazza delle Stelle

Uno spazio lontano dalle luci e dai rumori della città dove scoprire la volta celeste. In estate la Terrazza si trasforma in un magico palcoscenico per concerti di musica classica e leggera, animazioni e spettacoli, approfondimenti a tema astronomico e tante, tantissime stelle.

Terrasse der Sterne

Ein Raum abseits der Lichter und des Lärms der Stadt. Lass dich auf eine fantastische Reise entführen, um das Himmelsgewölbe zu entdecken. Und im Sommer verwandelt sich die Terrasse in eine magische Bühne für Konzerte von klassischer und Unterhaltungsmusik, Animationen und Shows, Einblicke in astronomische Themen und viele, viele Sterne.

Terrace of the Stars

Somewhere far from the city lights and noise. Let yourself be carried on a fantastic journey of discovery of the heavenly bodies. And in the summer, the Terrace becomes a magical stage for classical and pop music concerts, animation and shows, talks about astronomy and lots and lots of stars.

SCI ALPINO SKIFAHREN ALPINE SKIING

70 ettari di superficie sciabile, 20 chilometri di piste molto ampie ed un sistema di innnevamento programmato integrale sono solo l'inizio per un divertimento sulla neve da o a 99 anni.

70 Hektar Skifläche, 20 Kilometer sehr breite Pisten und eine integrierte Beschneiungsanlage sind nur der Anfang für Schneevergnügen von 0 bis 99 Jahren.

70 hectares of skiable area, 20 kilometres of very wide slopes and an integral snowmaking system are just the beginning for fun in the snow from 0 to 99 years of age.

NIGHT&DAY

Sciare in notturna sul Monte Bondone è un'esperienza unica. Il cielo stellato sopra la testa, il mare di luci della città davanti agli occhi. Due volte a settimana, durante tutto il periodo di apertura degli impianti, il Monte Bondone apre i suoi tornelli anche in notturna, grazie ad un nuovo impianto di illuminazione fissa con tecnologia a LED. Un'emozione che resta nel cuore.

Nachtskifahren auf dem Monte Bondone ist ein einzigartiges Erlebnis. Der Sternenhimmel über Ihrem Kopf, das Lichtermeer vor Ihren Augen. Zweimal pro Woche, während der gesamten Öffnungszeit der Lifte, öffnet der Monte Bondone auch nachts seine Kreuze, dank einer neuen fest installierten Beleuchtungsanlage mit LED-Technologie. Ein Gefühl, das im Herzen bleibt.

Skiing at night on Monte Bondone is a unique experience. A starry sky above your head and a sea of city lights before your eyes. Twice a week, during the entire opening period, Monte Bondone ski resort is accessible even at night thanks to a new ongoing LED lighting system. An emotion that will always be in your heart.

Ciaspole e Sci Alpinismo

Per scoprire la conca delle Viole in inverno il modo migliore è infilare un paio di racchette da neve e iniziare a camminare tra i boschi, i prati e i massi erratici, sotto il grandioso anfiteatro corallino delle "Tre Cime del Monte Bondone". E per chi ama le sfide, il Monte Bondone offre diversi tracciati per lo sci alpinismo con panorami mozzafiato.

Schneeschuhe und Skibergsteigen

Um die Viole im Winter zu entdecken, schnallt man sich am besten ein Paar Schneeschuhe an und macht sich auf den Weg durch die Wälder, Wiesen und Findlinger unterhalb des grandiosen Korallen-Amphitheaters der "Tre Cime del Monte Bondone".

Und für diejenigen, die eine Herausforderung suchen, bietet der Monte Bondone mehrere Skibergsteigeroutes mit atemberaubenden Aussichten.

Snowshoes and ski mountaineering

The best way to appreciate the Viole basin in winter is putting on a pair of snowshoes and walking through the woods, meadows and erratic boulders, under the magnificent coral amphitheatre of "Tre Cime del Monte Bondone". And for those who like a challenge, Monte Bondone offers several ski mountaineering trails with breathtaking views.
